

My List

„My List“ offers the possibility to store recurring parts and quantities to generate an order if requested

At first, please generate a list.

The screenshot shows the 'Manage My Lists' interface. On the left is a sidebar with navigation options: Order Entry, Upload Items from Excel, My List (highlighted), Check Price and Availability, Check on Existing Orders, Lincoln brand, SKF brand, Quote Inquiry, Lincoln non standard, SKF non standard, and Inter-Company Items. The main area has a title 'Manage My Lists' and a note: 'NOTE: Only valid items from this list will be added to the cart.' Below the note are input fields for 'List Name' and 'List Description'. A table with columns 'Select', 'List', 'Description', and 'Promotional List' is visible. A modal window titled 'Add List' is open, showing input fields for 'List Name' (containing 'Quickclub') and 'List Description' (containing 'Quickclub parts'), with 'Back' and 'Add' buttons. To the right of the modal is a vertical stack of buttons: 'Add', 'Change', 'Delete', 'Manage Item Associations', and 'Add to Cart'. Red arrows point from the 'Add' button in the modal to the 'Add' button in the stack, and from the 'Add' button in the modal to the 'Add to Cart' button in the stack.

The screenshot shows the 'Manage My Lists' interface after a successful addition. The note now reads: 'NOTE: Only valid items from this list will be added to the cart. List Two-line systems had been added successfully'. The 'List Name' and 'List Description' fields are empty. The table below has columns 'Select', 'List', 'Description', and 'Promotional List' and contains two rows: 'Quickclub' with 'Quickclub parts' and 'Two-line systems' with 'Different parts'. To the right of the table is a vertical stack of buttons: 'Add', 'Change', 'Delete', 'Manage Item Associations', and 'Add to Cart'.

My List

You can add products to your list from any position on OrderLub.skf.com.

Order Pad
